

FLATPACK

Fix the Future™

is the basic logo!

Here's Ikea Man, below we've got Vault Boy. For the WRENCH icon, I'm looking for a female figure, leaning toward the simplicity of Ikea Man but with a range of emotions and gestures like Vault Boy. This icon is all about charm and humor. She's there to make you smile. She should make a good tattoo. I'll need her in a few poses to go throughout the document. Pointing, looking shocked, running away from an explosion, I'm not sure what yet, but it'll be things like that. Maybe six poses, but we'll hammer that out. Female figure or not, she should always be active.

Never passive.
